!! For MCO use only: CSC change information (Do not write in this box) !!

CSC available units:

CSC change effective date:

- The Provider Choice Form must be completed whenever the member chooses their providers. This includes the Provisional Service Plan (only identifies CSC), ANY Individual Service Plan (ISP), and ANY provider or CSC changes.
- KDHE staff will maintain this list as they receive updated information from providers about: accepting new referral status, contact information, service area, etc. However, provider availability may still fluctuate.
- **Before the member's Individual Service Plan is submitted to the MCO, the CSC is required to confirm that the chosen provider(s) can serve the referral.**
 - If this requires longer to locate a provider than the ISP submission timeline, please notify the MCO and the STEPS Program Manger so more time can be allowed, **OR**
 - Submit the ISP with the provider listed as TBD and a revised ISP can be submitted to add a provider later.
- CSCs cannot direct members to the agency for which they work or are affiliated with for services (limited exceptions may apply on a case-by-case basis).
- Members, their representatives or guardians, the CSC, and or an MCO Care Coordinator must sign the Provider Choice Form signature page below before services can start.
- **CSC Changes:** A member can request a CSC change at any point but please allow up to 8 business days for the old CSC to wrap up their billing for the member.
 - MCOs are responsible for entering authorizations into the system and there cannot be an overlap.
 - The new CSC must also submit a revised and signed Individualized Service Plan and CSC Electronic Consent Statement (if applicable) within 10 business days of the new CSC start date.
